The mirror of the pow wow told No tale of orchards ripe and rare

Nor knew the glad, creative skill. The joy of him who talks with God O. Painter of the fruit and flowers, We thank Thee for Thy wise design Whereby these human hands of ours in nature's garden, work with thins

And thanks that from our daily need, The joy of simple faith is born, That he who smites the summer weed, May trust Thee for the autumn corn. Give fools their gold and knaves their por Let fortune's bubbles raise and fall.

Who sows a field or trains a flower, Or plants a tree is more than all For he who blesses most is blest, And God and man shall have his worth

Who tolls to leave as a bequest An added beauty to the earth.

And soon or late to all who sow. The time of harvest shall be given.
The flowers shall bloom, the truit shall grow If not on earth at last in Henven.

which attracted his attention, on the newspaper wrapper:

To rs Mambers — This question was asked by the Whitman Grange, of Macon county Illinois, and muswered as follows by Joe Ray, Lecture of the Grange:

This is a question and one that addresses the office of the Order, and one that addresses the office of the Order, and one that addresses the office of the Order, and one that addresses the office of the Order, and one that cach individual member would answer in a different the name of the Order, and one that that been a bening ment would say that it had been a bening the same conclusion by different channels of argument would say that it had been a bening the same of the order to t HAS THE GRANGE BEEN OF ANY BENEFIT | newspaper wrapper;

Many of the continue precially farmers, are apt to think that after their school days are over that they should selled the part of the continue of the continu

pers, and a number of the city ones too to treat and speak of and respect the Or-der. It has established such relations mong farmers as will materially lessen the bitterness and animosities of the im-pending national election, and it should be the duty of every member to help tide it over the coming election without inju-ry, and we may hope to have it on a still surer and firmer basis than it is at

If we would have the great ledger of our past exhibit a balance in our fa-wor, we must be sure that we have so lived that we have been of some benefit to our country and to our fellow-citizens, that our words, our deeds and our influence have in general been for the bettering of the conditition of others. The Grange is one of the agencies through which such a result can be accomplished and no one should brexcused from doing

MEDICAL.

The doctors have had something new at Scio, Oregon. It was a feminine patient with bugs in her stomach. The in-sects have been dislodged by means of a powerful cathartic, and the patient is the signs to be recovering. The strangers resembled the ordinary bedbug, and were alive when brought to the light. The learnes, practitioners do not seem to have inquired whether the afflicted woman had been in the habit of sleeping with

Mrs. Mary C. Burnham, whose misfortune of losing her tongue attracted so much attention two years ago, died in Rootstown, Friday, July 28. Mrs. Burn-ham had been afflicted for about twenty years with a bronchial or throat difficul-ty. Her tongue became paralyzed, and she gradually lost the use of this member During this time her health was general SOMETHING ABOUT Edds.—A writer in the Medical Journal discoursing on dyspepsia, says: We have seen dyspepties who suffered untold torments with almost every kind of food. No liquid could be taken without suffering. Bread became a burning acid. Meat and milk were solid and liquid fires. We have seen those same sufferers trying to avoid food and drink, and even going to the enema syringe for sustenance. And we have seen the torments pass away and their hunger relieved by living upon the white of eggs, which have been boiled in bubbling water for thirty minutes. At the end of a week we have given the half yolk of the egg with the white, and upon this diet alone, without liquid of any kind, we have seen them begin to gain flesh and strength.

After weeks of this treatment they have

After weeks of this treatment they have connections of the tongue. The basis of this theory was the sound condition of been able, with care, to begin upon other food; and all this, the writer adds, without taking medicine. He says that bard boiled ever and the says that bard boiled ever and the says that without taking medicine. He says that hard boiled eggs are not near so bad as half boiled ones, and ten times as easy to digest as raw eggs, even in egg-nog.

Possimitties of an Ache.—No man knows what these are. We know that two hundred bushels of corn were ones grown on one scre, and that five bales of cotton have been made on the same acre of soil, but we do not know that the limits of production were reached in either case. We should try to find out not merely how much of any given crop can be produced on one acre of land, but how cheaply it can be grown. A hig crop may not, in all cases, be a profitable one. It may cost too much to make it. The greatest yield with the smallest possible outlay of capital and labor is what we aim at. Our farmers are often too poor, not so much because their crops are small—and small they are compared with what they might be—as because it costs too much to make them. We must learn to make them. We must learn to make larger crops with less labor. To do

the throat and month. Mrs Burnham felt no unusual pain at the time. Strange as it may seem Mrs. Burnham, whitle her tongue was paralyzed, so cultivated a control of the other organs of speech that after her tongue was lost she was able act customed to hear her. The singular loss of the tongue produced considerable astonishment at the time, strange as it may seem Mrs. Burnham felt no unusual pain at the time, so cultivated a control of the other organs of speech that after her tongue was lost she was able after the fost of the tongue produced considerable astonishment at the time. The singular loss of the tongue produced considerable astonishment at the time, and cost so of the tongue to hear her. The singular loss of the tongue produced considerable astonishment at the time. Mrs. Burnham felt no unusual pain at the other organs of speech that after her tongue was lost she was able as tensioned to hear her. The singular loss of the tongue produced considerable astonishment at the time. Was able as tensioned to hear her tongue th

much to make them. We must learn to make larger crops with less labor. To do this, we must go over less ground, and make science and practical skill properly supplement muscle and machinery.—Ru
Tarellyian.

William Crownsheet, while eating his enacted fresh hindrances thereto. As such a least of the set addressed its repeal.
